## David R. Hawkins, M.D., Ph.D.

Dr. Hawkins is an internationally-renowned spiritual teacher, author, and speaker on the subject of advanced spiritual states, consciousness research, and the Realization of the Presence of God as Self.

His published works, as well as recorded lectures, have been widely recognized as unique, in that a very advanced state of spiritual awareness occurred in an individual with a scientific and clinical background, who was later able to verbalize and explain the unusual phenomenon in a manner that is clear and comprehensible. This has provided spiritual seekers around the world with a level of spiritual comprehension never before experienced.

In response to his observation that much spiritual truth has been misunderstood over the ages due to lack of explanation, Dr. Hawkins began to present seminars and provide detailed explanations that are too lengthy to describe in book format. CDs and DVDs are available of all of his seminars, which include questions and answers that provide additional clarification.

The overall design of his lifetime work is to recontextualize the human experience in terms of the evolution of consciousness, and to integrate a comprehension of both mind and spirit as expressions of the innate Divinity that is the substrate and ongoing source of life and existence. This dedication is signified by the statement "Gloria in Excelsis Deo!" with which his published works begin and end. The authenticity of his state of advanced spiritual awareness is further corroborated by the unique experiences and shifts of consciousness noted by attendees when being in Dr. Hawkins' presence. His love of mankind shines forth, allowing those in his presence to experience their own inner joy and well-being.

*Straight and narrow is the path ... waste no time.*
